OGDEN, UTAH, - JULY 11, 1903

FIENDISH MISCREANT.

During the Absence of Her Parents an Eleven Year Old Girl Assaulted-Wretch Caught-

A Riverdale Burglary - Robbed a Dead Man - John Boe Charged with Stealing a Check.

Late yesterday afternoon Officer Burke arrested a man who gave his name as Fred Meyers on the charge of attempted rape. The same man was arrested the day before on the charge of drunkenness, when he gave the name of George Douglas and forfeited his bail. Meyers, it is charged by Mrs. Engles, who resides at 2259 Adams avenue went to their home Thursday afternoor while she was attending to some busi-ness in town. He knocked at the door and the little 11-year-old girl, who was left in the house to care for the baby, responded. He asked if her father or mother were at home, to which the little girl responded, No; he then opened. the screen door and walked in the house. The little girl fearing that he would harm the baby followed him into the bedroom, where he grabbed her and tore part of her clothing from her back in his endeavor to overpower her. She screamed loudly attracting the attention of a near neighbor, who quickly ran to the house, but the brutal assailant having been seen, he ran away. The police were called but were unable to locate him. Yesterday morning at about 11 o'clock Meyers again appeared at the Engles house, but quickly took his departure on finding the mother at home. The police again re-sponded, but could not find him. Mathew Gillis took the little girl in town yesterday afternoon, and while walking along Washington ayenue near the Z. C. M. I., she saw her assallant and pointed him out to Mr. Gilsallant and pointed him out to Mr. Gills, who immediately got Officer Robert Burke, who followed Meyers into the Atlas saloon, where he tried to escape through the backdoor, which was locked, and the officer placed him under arrest. He has been charged with assault with intent to commit rape. HOUSE BURGLARIZED.

The home of Richard Dye at Riverdale was burglarized at about 5 o'clock last evening and two suits of clothes, two checks and a small amount of

money were taken.

Mrs. Dye was in the garden only a short distance from the house busily engaged in picking some fruit; on returning to the house she found every thing ransacked, the beds turned up thing ransacked, the beds turned up-side down, making the house look like a cyclone had struck it. Mrs. Dye realized immediately what had happened, and on examining to see what was missing, she found that a new suit of black clay worsted cloths and a suit tha had been worn a short time were gone; also two checks on the Ogden Milling and Elevator company, one for \$47.80 and the other for \$20.80, and a amount of cash. The sheriff's office and police department were notified of the burglary and immediately started on a search for the criminals.

Yesterday afternoon Deputy Sheriff Joseph Belnap went to Croyden, Morgan county, to arrest a man on a war-rant charging robbery. The warrant was made out in the name of John Doe, whose true name is learned to be George Laferty.

The crime for which Doe is wanted

is an atrocious one, as it is charged he robbed a dead man of a check for

FOR ROBBING THE DEAD. At the time when the explosion oc-curred at Croyden Tuesday, when Ed-ward Behn was killed, it was known he had a check for \$360, on his person but when searched by the coro check was missing and could not be found. Thursday a laborer, employed at the construction works where the accident occurred, came to Ogden and endeavored to cash the check at several places, but being unable to, he turned it over to the Utah Construction company, who later learned as to how he came in possession of the check and caused the warrant for his arrest to

be issued. A MUSICAL TREAT. One week from next Monday the music loving people of Ogden will have an opportunity to hear Prof. Squire Coop for the first time since his return from Berlin and Paris, where, for over three years, he has been studying music under some of the greatest masters of a favorite in Ogden music circles, because of his great ability in his chosen profession. On the evening of July 20 he will give a grand concert and recital, assisted by Mile. Carmen Lense, talented young lady vocalist from Paris, who is visiting in Ogden; also some of Ogden's best local talent. The re-cital will be one of the finest ever presented to an Ogden audience and should be well patronized. The com-plete program will be published later.

A Sustaining Diet.

These are the enervating days, when as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with dan-ger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic, -say, a sustaining diet. It makes it much easier to bear the heat, assures efreshing sleep, and will without any doubt avert much sickness at this time

### CANCEROUS ULCERS ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignifi-

cant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating ulcers.

A small pimple came on my jaw, but gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and nitch; it would bleed a little, then seab over, but would not heal. This continued for some time then the Cancer began to eat and spread, until it was as large as a half dollar, when I heard of S. S. S. and determined to give it a fair trial, and it is remarkable what a wonderful effect it had from the beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago; there are continues good. Mrs. R. SHIRER, Wyaconda, Mo.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps salves, etc., keep the surface clean, they are not healing. A blood

medicine to purify and strengthen the polluted blood and a tonic to build up the general system is when is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. THE SWIFT SPECIFIC CO.. ATLANTA. GA.

A Narrow Escape - Challenge Ac cepted - Drilling Contest.

Special Correspondence.

Park City, July 10 .- Edward Le Compte the young man who was under the necessity of leturning home from West Point on account of serious injury to his knee cap while practising in a cavalry drill, and whose leg was in a plaster cast, met with an accident not more serious. He was riding down one of the hill streets when suddenly the horse become frightened and ran away upturning the cart and the driver was thrown out sustaining severa bruises and a good shaking up but for tunately the "game leg" escaped un-hurt on account of his knee being in a cast. He was unable to restrain the frightened horse and it is a wonde that he escaped with his life as in th wild dash down the street there were many places that would easily have furnished a fatal resting place or a least much more serious results.

Breezy Crop Items-The Celebration Of the 4th-Preparations for 24th.

Special Correspondence.
Franklin, Idaho, July 6.-We are have ing fine and dry weather, considerable grain on the dry farming land is suffering and if the dry and hot weather we are now having, lasts much longer a great deal of wheat will be destroyed Where there is water the grain well, and the prospect now is, that there will be a heavy harvest. Farmers are very busy getting up

their lucern crops which in places are heavy. Some were destroyed last winter and spring. Nevertheless there will be a heavy crop throughout the valley. Beet crops are also very good in some parts of the valley.

We have plenty of water for irrigation of farms and gardens. It has been a remarkable season. No frost to speak

of; but in years gone by, we always had frost in May and June.

Prospects for fruit are good. Strawberry crops, however are not doing trict court under \$15 bond. It appears well this season. A new floor has been put on the plat-form of our Tithing office, and a rail-

SCIENCE PREVENTS BALDNESS. The Fatal Germs and Its Remedy Now Facts of Science,

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpi-cide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont. was entirely bald. In less than a month Herpicide had removed the enemies of halr growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Weekly Weather and Crop Report Boise, Idaho, July 7, 1903.-Unseasonable cool weather prevailed throughout the week, resulting in light frost in exposed places on several mornings, causing slight injury to vegetation: there was more than the usual amount of cloudiness, and, over the northern and central counties good rains fell: some light showers occurred in other portions of the state, but these were generally insufficient to be of material benefit to growing crops, high winds occurred over the more exposed portions, retarding having operations and causing rapid evaporation.

CROPS.

Fruit-Strawberries are ripening in the more elevated districts, while in favored sections raspberries are in use; markets are well supplied with cherries; all fruit crops have made satisfactory advancement, and the gen-eral outlook continues bright for good returns from commercial orchards.

Grain-Cool weather has been rather a benefit to small grain, and in morthern counties, as well as in other sections where water has been available, the crop is in excellent condition; much of the "dry farm" grain in southern and eastern counties is suffering from drouth, though in a few localities it is still in good condition. Grasshoppers and squirrels are active in localities of Blaine, Cassia and Bear Lake countles, but have not caused serious damage elsewhere.
